

JOBU label inserts

JOBU label inserts: improve your presentation

JOBU label inserts are used to secure your plant labels for an attractive presentation.

JOBU label inserts are available in several models:

- a simple pointed stick for inserting into the potting soil: available in various lengths and models
- a simple label clip to attach to the cane
- a label insert to attach along the side of the pot: available in various lengths
- a label insert with a 'flip-over' system allowing the label to be folded over easily in order to read the text on the other side
- various attachment clips with integrated label holder

JOBU label inserts are used for:

- pot plant production
- nursery sector

**JOBU label inserts:
let your labels speak for themselves.**
